02 — About

META DESCRIPTION

15+ years in advertising across SEA, and what led to caring more about meaning than the marketplace.

EYEBROW (CROSSED-OUT VERSION)

The unedited version

Advertising Creative with 15+ years of experience.

REDO LINE

Actually, let me start over —

HEADLINE

I grew up in the city but lived a kampung lifestyle.

SUBHEAD

It's what taught me to consider the impact of every intention and action.

BODY COPY

For more than 15 years, I've sought to integrate commerce and human experience.

In that time, I have crafted campaigns for global brands including Apple, Grab, foodpanda, Nestle, and Toyota. The kind of work that's taught me a campaign can do more than move product, if you let it. No matter the role I play, that's the perspective I bring. Be it consulting for a business, writing about the world we live in, or practicing mindfulness, the goal is always the same: to make something honest enough to actually mean something more.

PULL QUOTE

From meaning, we find value.

BODY COPY (CONT.)

I can't perform a curated version of myself for very long. So I choose to just be who I am, and I hope I can help you or your brand do the same.

Full-service creative solutions provider.

REDO LINE

In plain terms —

HEADLINE

Writing, Solving Problems, and Helping You Just Breathe

INTRO COPY

Different problems need different tools. Sometimes that's a headline, or a strategy deck. Other times, you just need a guided quiet time. I can help with any one, or all of them.

01 — Copywriting

Whether it's a 30-second script or social content hooks, I write copy, scripts, and campaign lines that feel right for the moment. Working in both English and Bahasa Malaysia, I go beyond writing, translating, editing, and proofreading. I figure out what you should really be saying, so it actually talks to your audience and not just at them.

- Campaign & Traditional Copy
- Social Media Copy
- English & BM Adaptation
- Edit & Proofread

02 — Creative Strategy

Everything worth acting on starts with a strategy. I help brands figure out what to say and where, including campaign ideation, positioning, and digital and content strategy. When that thinking needs to reach a whole team, that's where my creative leadership comes in.

- Brand Strategy
- Campaign Ideation
- Creative Direction
- Workshop Facilitation

03 — Wellness

When you or your team needs clarity, I run mindfulness sessions built around it. It's the same kind of attention I bring to a brief, where together we sit with intention until what's underneath rises to the surface.

- Mindfulness & Reflection
- 1:1 Sessions
- Group Workshops
- In-Person & Virtual
